§ Description

TEROSON® PU 8591 T is a black, solvent and PVC-free, smooth, sag-resistant polyurethane direct-glazing adhesive used for bonding front, rear and side screens to the body of motor-, utility-, special- and rail vehicles and for bonding side windows made of single-pane glass or insulating glass in bus and rail coach manufacture. It can be used as a gap filler with non-staining properties.

☑ Avantages

Very good sag resistance
High cure rate
High elastic and shear strength, even after aging
Very low conductivity
Good adhesion to the remaining material
Excellent adhesion to glass, glass with the ceramic coating, encapsulation and to painted surfaces when used with a primer/activator
High UV resistance when used with a primer/activator

☑ Caractéristiques

Polyurethane direct-glazing adhesive used for bonding front, rear and side screens to the body of motor-, utility-, special- and rail vehicles.
